

IN THE DRAWINGS

Please amend the drawings by replacing original sheet 1/1 with replacement sheet 1/1. By this amendment, Figure 1 has been labeled and amended to schematically include the crankshaft, the crankshaft wheel and the chain or toothed belt originally described in the specification at paragraphs [0040], [0041], and [0052], as well as the original claims. Additionally, Figure 2 has been added to illustrate a known BLDC motor arrangement with electronic commutation using Hall effect sensors.
